

Sustainability Plan

Onnoy (অনয়), 2026–27

Amra Notun Network, Mymensingh Cohort 2026

Objective

In the next 12 months, grow Onnoy from a cohort project into a sustainable mentorship platform that gives students, parents and teachers tailored guidance on key life decisions — helping parents manage screen time at home, students navigate what to learn in the age of AI, and families decide where to study based on personal preference and circumstance.

Activities

- Expand outreach:** Partner with school clubs and conduct outreach sessions to expand our student community.
- Launch mentorship:** Pilot student mentoring with a first group of mentors on our website, alongside our two courses and modules.
- Produce guiding resources:** Print and distribute our e-booklets and workbooks for critical decision-making.
- Build funding:** Convert our CSR partnership proposal into first partners, run sponsored workshops, and use Cha-Bondhu support for crowdfunding. Well-wishers have already contributed **৳1,125.**
Small start, big thanks.
- Strengthen foundations:** Complete legal and Intellectual Property registration, put financial controls in place, and formalise school and parental consent.

Measuring success

Informed —————> **Aware** —————> **Guardians**
cohort end in 12 months

80+ → **300+**

students complete the modules, across 5+ schools

20+ → **100+**

students earn this badge

3+ → **20+**

become Guardians, mentoring at least 100 peers

Parents and teachers: booklets distributed and feedback collected.

peers reaching peers

Sustainability: at least one paying CSR partner and legal and IP registration completed.

Data comes from our platform's badge dashboard and assessment survey forms.
